

### Catch return for late fishing licence

The licence to fish after the end of the Annan's normal fishing season is being used to collect information about the viability of such a fishery. The hope is that we can demonstrate that a viable fishery beyond the 15<sup>th</sup> of November exists on the Annan. Anglers must fill in this simple form in order for us to make the correct assessment. Failure to do so will mean that we will have insufficient evidence to make the correct assessment. Please ensure that you return this to the fishery owner after you have finished fishing. Please also remember that all the fish caught between the 15<sup>th</sup> of November and the 30<sup>th</sup> of November must be returned and that the methods used to capture them must be fly or spinner only.

Date	Time Start Fishing	Time Finished Fishing

Fish	Length	Condition**

\*\* please refer to the pictures below and put in the letter that indicates what condition your fish is closest to.
